SUMMARY

I am an Information Technology engineering student currently living in Delhi, India with experience in software development and a passion for solving complex problems. Seeking opportunities to contribute my skills and learn in a dynamic environment.

PROFESSIONAL EXPERIENCE

Sopra Steria, Remote: Externship

July 27, 2023 - Sept. 27, 2023

- **Project Overview:** Developed **lender.com** a Peer-to-Peer Lending Marketplace, a platform that connects borrowers with investors seeking to lend money at competitive interest rates. The platform aims to streamline the borrowing and lending process by providing a digital space where borrowers can request loans and investors can fund these loans directly.
- **Buisness Model:** Designed a business model that generates significant revenue from the Peer-to-Peer Lending Marketplace
- **Technology used:** chosen to leverage the power of **OutSystems**, a low-code application development platform. **OutSystems** allows for efficient and rapid development of web and mobile applications, making it an ideal choice for building a sophisticated lending platform.

Certificate and **Project report**

TECHNICAL SKILLS

Design, Modeling and other Low Code Tools: Outsystems(Service Studio)

Programming: C, C++, Python, HTML/CSS, JavaScript, Latex, Shell Scripting (Zsh, Bash)

FrameWorks : Django, Flask, StreamLit, matplotlib, Selenium

Operating System : Linux, Unix, Ubuntu

Databases : MySQL, PostgreSQL, sqLite

Tools : Vim, Neovim, CMake

EDUCATION

Bachelor of Technology in Information Technology

Dec. 10, 2021 - Sept. 1, 2025

GGSIP University

8.558 GPA

Relevant coursework: Minor in AIML

Senior Secondary

April 1, 2020 - July 1, 2021

GD Goenka Public School, Delhi, India

Percentage: 92.6%

Relevant coursework: Physics, Chemistry, Maths, English, Physical Education

Secondary

April 1, 2018 - July 1, 2019

EKYA School ITPL, Bangalore, Karnataka, India

Percentage: 85%

Relevant coursework: Maths, Science, English, SST, Hindi

PROJECTS

Stocks News Sentiment Advisor

Sept 12, 2024 - sept 20, 2024

this app provides valuable insights into the sentiment surrounding stocks, helping users make more informed decisions based on current news trends. *Skills used :* **python**, **TextBlob**, **Newsapi**, **yfinance**, **requests** ([Live Link](#)) ([Github Link](#))

Real Time Chat App

Aug. 20, 2022 - Sept. 2, 2024

Built a Real-time chat application using **C++**, **WebSockets**, and **Boost.Asio** for the *server*, and **html/JavaScript** for the *frontend* ([Github Link](#))
Utilized **CMake** to automate testing and deployment processes

Blogging Website For Content Writer

Sept. 28, 2023 - Sept. 30, 2023

Built a robust web application using **Django**, emphasizing its feature-rich nature and streamlined development process. ([Live Project link](#)) ([Github Link](#))

Links for More Projects

Here is the portfolio link for some of the projects I've worked on, with links to both the repository and live deployments ([Project Portfolio](#))

ACHIEVEMENTS

Percentile in JEE Mains

July 1, 2021

87.7

Defence Forces

March 15, 2022

Cleared NDA exam & Appeared in SSB interview twice
